DETERMINATION OF NON-SIGNIFICANCE

PROPOSAL NAME:	Crispin Lifts and Buoy
LOCATION:	4833 Lakehurst Lane SE Bellevue WA 98006
FILE NUMBERS:	21-101539 WE
PROPONENT:	Dennis Crispin Jr
DESCRIPTION OF PROPOSAL: Land Use Review of a proposal to install one free-standing boatlift with a light penetrating canopy, one dock mounted Personal Water Craft (PWC) lift and one buoy associated with an existing dock.	

The Environmental Coordinator of the City of Bellevue has determined that this proposal does not have a probable significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(C). This decision was made after the Bellevue Environmental Coordinator reviewed the completed environmental checklist and information filed with the Land Use Division of the Development Services Department. This information is available to the public on request.

This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS. There is a 14-day appeal period. Only persons who submitted written comments before the DNS was issued may appeal the decision.

DATE ISSUED: 4/8/2021

APPEAL DATE: 4/22/2021

A written appeal must be filed in the City Clerk's Office by 5 p.m. on the appeal date noted above.

This DNS may be withdrawn at any time if the proposal is modified so as to have significant adverse environmental impacts; if there is significant new information indicating a proposals probable significant adverse environmental impacts (unless a non-exempt license has been issued if the proposal is a private project) or if the DNS was procured by misrepresentation or lack of material disclosure.

Issued By: *Heidi Bedwell, Planning Manager*

for **Date:** April 8, 2021

Elizabeth Stead, Environmental Coordinator
Development Services Department

Development Services

SEPA Environmental Checklist

The City of Bellevue uses this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions

The checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully and to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions.

You may respond with "Not Applicable" or "Does Not Apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies and reports. Please make complete and accurate answers to these questions to the best of your ability in order to avoid delays. For assistance, see [SEPA Checklist Guidance](#) on the Washington State Department of Ecology website.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The city may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Background

1. Name of proposed project, if applicable Crispin Boat and PWC Lift
2. Name of applicant Dennis Crispin, Jr.
3. Contact person Dennis Crispin, Jr. Phone 425.417.0553
4. Contact person address 4833 Lakehurst LN SE Bellevue, WA 98006
5. Date this checklist was prepared 1/10/2021
6. Agency requesting the checklist City of Bellevue Development Services

7. Proposed timing or schedule (including phasing, if applicable)

Before December 31, 2021

subject to work window limits for lake WA
per WA Fish and Wildlife

8. Do you have any plans for future additions, expansion or further activity related to or connected with this proposal? If yes, explain.

No

9. List any environmental information you know about that has been prepared or will be prepared, that is directly related to this proposal.

None known

10. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

No

11. List any government approvals or permits that will be needed for your proposal, if known.

None known

12. Give a brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

install 1 freestanding boatlift with light-penetrating fabric canopy, one pier mounted PWC lift (as-built), and one buoy (as-built) for recreational use at the 15,000 sq ft+/- residential site

13. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and the section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

Environmental Elements

Earth

1. General description of the site:

☒ Flat

☐ Rolling

☐ Hilly

☐ Steep Slopes

☐ Mountainous

☐ Other _____

2. What is the steepest slope on the site (approximate percent slope)? <1%

3. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

Sand & gravel

4. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

no

5. Describe the purpose, type, total area and approximate quantities and total affected area of any filling, excavation and grading proposed. Indicate the source of the fill.

none, does not apply

6. Could erosion occur as a result of clearing, construction or use? If so, generally describe.

no

7. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? none, does not apply

8. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.

none

[Compliance with BCC 23.76
Clearing and Grading Code](#)

Air

1. What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

None, does not apply

2. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No, does not apply

3. Proposed measures to reduce or control emissions or other impacts to air, if any.

None, does not apply

Water

1. Surface Water

- a. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Yes, Lake Washington

- b. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Yes, install 1 freestanding boatlift with light-penetrating fabric canopy, one pier mounted PWC lift (as-built), and one buoy (as-built)

- c. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

None, does not apply

- d. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose and approximate quantities, if known.

No, does not apply

- e. Does the proposal lie within a 100-year floodplain? No
If so, note the location on the site plan.

- f. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No, does not apply

2. Ground Water

- a. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

No, does not apply

- b. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

None, does not apply

3. Water Runoff (including stormwater)

- a. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

None, does not apply

- b. Could waste materials enter ground or surface waters? If so, generally describe.

No, does not apply

- c. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

No

Indicate any proposed measures to reduce or control surface, ground and runoff water, and drainage pattern impacts, if any.

None, does not apply

Plants

1. Check the types of vegetation found on the site:

- ☐ deciduous tree: alder, maple, aspen, other _____
- ☐ evergreen tree: fir, cedar, pine, other _____
- ☐ shrubs
- ☒ grass
- ☐ pasture
- ☐ crop or grain
- ☐ orchards, vineyards or other permanent crops
- ☐ wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other _____
- ☒ water plants: water lily eelgrass, milfoil, other milfoil
- ☐ other types of vegetation _____

2. What kind and amount of vegetation will be removed or altered?

none, does not apply

3. List any threatened and endangered species known to be on or near the site.

Salmon

4. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site, if any.

None

5. List all noxious weeds and invasive species known to be on or near the site.

English Ivy, Milfoil

Animals

1. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. Examples include:

Birds: ☐hawk, ☐heron, ☒eagle, ☒songbirds, ☐other _____

Mammals: ☐deer, ☐bear, ☐elk, ☐beaver, ☐other _____

Fish: ☒bass, ☒salmon, ☐trout, ☐herring, ☐shellfish, ☐other _____

2. List any threatened and endangered species known to be on or near the site.

Salmon

Chinook and Bull Trout

3. Is the site part of a migration route? If so, explain.

Possibly a Salmon outmigration route

4. Proposed measures to preserve or enhance wildlife, if any.

Adhere to all regulations and guidelines

5. List any invasive animal species known to be on or near the site.

None are known to be on or near the site

Energy and Natural Resources

1. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

None, does not apply

2. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

No, does not apply

3. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.

None, does not apply

Environmental Health

1. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste, that could occur as a result of this proposal? If so, describe.

No

- a. Describe any known or possible contamination at the site from present or past uses.

None, does not apply

- b. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

None, does not apply

- c. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

None, does not apply

- d. Describe special emergency services that might be required.

None, does not apply

- e. Proposed measures to reduce or control environmental health hazards, if any.

None, does not apply

2. Noise

- a. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None, does not apply

- b. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)?
Indicate what hours noise would come from the site.

Installation, Monday through Friday 8AM to 4:30PM

- c. Proposed measures to reduce or control noise impacts, if any.

Limit time of installation to Monday through Friday 8AM to 4:30PM

Land and Shoreline Uses

1. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

Private single-family residence

2. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?

No

- a. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how?

No

3. Describe any structures on the site.

Private single-family residence and dock

4. Will any structures be demolished? If so, what?

No

5. What is the current zoning classification of the site? R-4

6. What is the current comprehensive plan designation of the site? single family high density

7. If applicable, what is the current shoreline master program designation of the site?

Shoreline residential

8. Has any part of the site been classified as a critical area by the city or county? If so, specify.

Yes, the shoreline

no known critical areas

9. Approximately how many people would reside or work in the completed project? None

10. Approximately how many people would the completed project displace? None

11. Proposed measures to avoid or reduce displacement impacts, if any.

None, does not apply

12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.

Adhere to all regulations and guidelines

LUC 20.25E Shoreline Overlay District

13. Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any.

Adhere to all regulations and guidelines

Housing

1. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

None, does not apply

2. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

None, does not apply

3. Proposed measures to reduce or control housing impacts, if any.

None, does not apply

Aesthetics

1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

Light-penetrating fabric canopy ~8ft above OHWM

2. What views in the immediate vicinity would be altered or obstructed?

None

3. Proposed measures to reduce or control aesthetic impacts, if any

Proposal will comply with all required setbacks

Light and Glare

1. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None, does not apply

2. Could light or glare from the finished project be a safety hazard or interfere with views?

No, does not apply

3. What existing off-site sources of light or glare may affect your proposal?

None, does not apply

4. Proposed measures to reduce or control light and glare impacts, if any.

None, does not apply

Recreation

1. What designated and informal recreational opportunities are in the immediate vicinity?

Water sports

2. Would the proposed project displace any existing recreational uses? If so, describe.

No

3. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.

None

Historic and Cultural Preservation

1. Are there any buildings, structures or sites located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? If so, specifically describe.

None known

2. Are there any landmarks, features or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

None known

3. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

none

4. Proposed measures to avoid, minimize or compensate for loss, changes to and disturbance to resources. Please include plans for the above and any permits that may be required.

none

Transportation

1. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

Does not apply

2. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

Does not apply

3. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?

None, does not apply

4. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

No, does not apply

5. Will the project or proposal use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.

No, does not apply

6. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?

None, does not apply

7. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

No

8. Proposed measures to reduce or control transportation impacts, if any.

None, does not apply

Public Service

1. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

No, does not apply

2. Proposed measures to reduce or control direct impacts on public services, if any.

None, does not apply

Utilities

1. Check the utilities currently available at the site:

- ☒ Electricity
- ☒ natural gas
- ☒ water
- ☒ refuse service
- ☐ telephone
- ☒ sanitary sewer
- ☐ septic system
- ☐ other

2. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed.

None, does not apply

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Crispin Boat and PWC Lift

Project Narrative:

Proposal is to install one free-standing boatlift, 1 dock mounted PWC lift, and one buoy at 4833 Lakehurst LN SE in Bellevue, WA.

- 1) **Free-standing boatlift with canopy** – This is a used 2008 Sunstream boatlift with light-penetrating fabric canopy. The lift will be floated into place which will only require minimal effort to install. The lift was purchased for \$3,950, including all required parts, and labor to install will be 5 hours at \$50 per hour. Total cost for this portion of the project will be \$4,200.

SUNLIFT LEGACY

MINI SMALL MEDIUM Canopy
SL4010AR

Capacity	4500lb / 1814kg
Standard Lifting Ranges (cut)	48" / 122cm (36" / 91cm)
Range w/ Adj. Range Accessory	36" / 91cm - 60" / 152cm
Capacity at Extended Lifting Ranges	4000lb / 1814kg
Bunk Length	10' / 3.05m
Frame Length	10.5' / 3.2m
Frame Width	9.5' / 2.9m
Weight	550lb / 249kg
Lifting Speed (Typ.)	25sec
Min. Water Depth Required (Typ.)	25" / 64cm
Number of Cylinders	2
Leg Lengths Available	2-24' / .61-7.3m

Washington Personal Property Bill of Sale

I, Patrick Nevin (seller), in consideration of three thousand nine hundred and fifty dollars (\$3,950.00), do hereby sell, transfer and convey to Dennis J. Crispin, Jr. (buyer), the following:
2008 Sunstream 4,000 lb capacity boat lift with canopy.

I, the undersigned seller, do sell the above-described property to the buyer for the amount shown and certify that all of the information provided in this Bill of Sale is true and accurate to the best of my knowledge.

I, the undersigned buyer, acknowledge receipt of this Bill of Sale and understand there is no guarantee or warranty, expressed or implied, with respect to the above-described property. It is also understood that the above-stated item is sold in "as is" condition.

Dated this fifth day of January 2021.

 Witness Name: (Printed) Ryan Michael
 Witness Signature: [Signature]

- 2) Dock-mounted PWC lift – The PWC lift is already installed at the site. The installed lift is not the lift depicted below. The lift depicted below is similar to the 20+ year old lift that is installed on the site therefore it is being used to establish the fair market value of the lift. The existing lift took 4 hours to install by the homeowner at \$50 per hour this portion of the project \$700.
